BME 280B Fall 2011
Thursdays 12 noon; PSB 305 unless otherwise noted

Sep 22  David Deamer: “Nanopore analysis: Application to a fundamental question in biology”
  David Haussler: To be rescheduled

Sep 29  Manel Camps: "Estimating the impact of point mutations: it is all about context"
  David Haussler: “TBD”

Oct 6   Josh Stuart: “TBD”
  Kevin Karplus: "Better than Chance: the importance of null models"

Oct 13  Elevator talks – all students

Oct 20  Kelly Williams, Systems Biology Department at Sandia National Labs
  Hosted by Todd Lowe

Oct 27  Ihor Lemischka, Director of The Black Family Stem Cell Institute, Professor of
  Developmental and Regenerative Biology, Professor of Pharmacology and Systems
  Therapeutics, Mt Sinai Medical Center, NY
  “Pluripotency etcetera”        PSB 240

Nov 3   Mark Akeson: “TBD”
  Ed Green: “Green lab genomics”

Nov 10  Dietlind Gerloff: “Gerloff Group Research: Fun and Value in Exceptions to the Rules”
  Todd Lowe: "Comparative RNA Sequencing Across Archaea Reveals a Constellation
  of New Small RNAs"

Nov 17  Robert Coffman: "Passing through the Toll Gates: developing Novel Therapeutics to
  Turn On or Turn Off Toll-like Receptors"

Nov 24  No seminar – Thanksgiving Holiday

Dec 1   Rotation talks
